

## Production Assembly Technician

### Job Description

Trango Networks, LLC is searching for motivated team members to help build and deliver our patented wireless networking systems! In this role you will be responsible for assembly, test and troubleshooting of finished products at our factory in Random Lake, Wisconsin.

- Kit raw materials for product builds according to work orders. Keep detailed notes as needed on scrap.
- Assemble products according to procedures and maintain an organized work area
- Test products to production criteria using automated test equipment.
- Troubleshoot production failures based on feedback from Manufacturing Engineer guidance
- Package tested products
- Some shipping and receiving tasks are required in this position on an as-needed basis:
  - Place merchandise in a warehouse or storage facility by packaging, lifting items as necessary.
  - Obtain and process product orders, including receiving deliveries, logging them and distributing packages and letters within the company.
  - Maintain the company stockroom through organizing, cleaning and cataloging items on a regular basis
  - Keep files of goods shipped and received by preparing regular shipping and receiving reports for managers

### Required Qualifications:

- Ability to operate assembly tools such as torque screwdrivers, solder iron, multimeter, etc.
- Ability to read and accurately follow detailed procedures
- HS Diploma or GED
- Strong interpersonal and communication skills
- Excellent organization and administrative skills
- Ability to manually lift boxes up to 50 lbs
- Exemplary customer care skills
- Good analytical and problem-solving skills

### Desirable Expertise:

- Associates in Electronics or related field
- Ability to read electronic schematics
- Familiarity with Odoo Factory management software
- Basic understanding of computer networking.
- Ability to thrive in a fast-paced, small company environment

### Location

Random Lake. Wisconsin
